As a Federal pass-through agency, the Iowa Department of Homeland Security and Emergency Management (HSEMD) and all grant sub-recipients are required to consider the effects of their actions on the environment and/or historic properties to ensure that all activities and programs funded by the agency, including grant funded projects, comply with federal EHP regulations, laws and Executive Orders as applicable.

Applicants proposing projects that have the potential to impact the environment, including but not limited to construction of communication towers, modification or renovation of existing buildings, structures and facilities, or new construction including replacement of facilities, must participate in the EHP review process **prior to work being initiated**. The EHP review process involves the submission of a detailed project description along with supporting documentation so that the federal awarding may determine whether the proposed project has the potential to impact environmental resources and/or historic properties. In some cases, DHS/FEMA is also required to consult with other regulatory agencies and the public in order to complete the review process. **The EHP review process must be completed before any related costs are incurred;** otherwise, HSEMD may not be able to fund the project due to non-compliance with EHP laws, executive order, regulations and policies.

Does my project need an EHP Screening Form?**Projects that ALWAYS Require EHP Review**

- Construction of new facilities or additions to existing buildings
- Modification or renovation of existing buildings or structures (cameras, generators, access controls, etc.)
- Physical security enhancements both interior and exterior and grounds (doors, lights, fences, bollards etc.)
- Construction or modification of communication towers (adding antennas, mounting equipment or shelters)
- All activities that cause ground disturbance
- Training/exercises that involve ground disturbance or are not located at a designated training facility
- Mobile equipment that involve radar/sonar technology

Projects that DO NOT Require EHP Review

- Preparation of Planning Documents
- Management and Administration
- Classroom-based Training/Table-top Exercises Only
- Training or exercises at designated training facilities using established procedures for a specific training/exercise
- Hand-held mobile equipment and supplies
- Motorized vehicles, watercraft, or trailers that will use existing staging or storage areas
- Personal Protection Equipment (PPE)
- Plug-in equipment; requires no wiring or installation onto walls, ceilings or floors

Other Projects

Some projects do not fit well into any of the categories above. If you have a question about whether your project needs an EHP Screening Form, send an email to: GPDEHPinfo@fema.dhs.gov

CERTIFICATION

I certify that I have read and understand guidance regarding EHP compliance and that the proposed project identified above (*check the one that applies*):

☐ DOES REQUIRE AN EHP SCREENING FORM TO BE COMPLETED AND SUBMITTED.

☒ DOES NOT REQUIRE AN EHP SCREENING FORM TO BE COMPLETED AND SUBMITTED.

I also certify that if the scope of the application or project changes and an EHP Screening Form is required that I will notify HSEMD's grant manager prior to incurring any expenses related to construction, renovation, ground disturbance or any other activity that may require EHP approval.

I also certify that a copy of all EHP Screening Forms submitted to FEMA will also be submitted to HSEMD's grant manager at the same time.
